6:00PM-8:00 PM**

## CLINIC PHILOSOPHY

This clinic is designed specifically for the young wrestler who wants to improve dramatically from the top position. Leg riding, double-grapevines, crab rides, tilts, arm bars, and other pinning combinations will be stressed. The instruction will feature a system of top wrestling, rather than a "barrage of moves." At week's end, campers will be much more confident in their ability to ride, turn and ultimately pin their opponents.
